

Certification of SDI PFT Filters distributed by Quset Medical In the USA

- Approved for use by United States Food and Drug Authority
- SDI PFT filters are 99.999% efficient against cross contamination
- The filter bodies and filter media are tested for biocompatibility
- The SDI PFT Filters have been validated for performance by Nelson Laboratories and the Pulmonary Department of Dr Robert Crapo, the author of the ATS/ERS standards
- The filter media is Technostat® which is the same media as is used in the MicroGard™ filters therefore requiring less cleaning for devices
- PulmoGuard Filters were engineered in Massachusetts and continue to be proudly manufactured here in the United States as they have been for the past 30 years
